

STANDARD AGREEMENT FOR IMPLEMENTATION OF ACADEMIC WORK

(Applicable for academic work related to an already established research project at Oslo Metropolitan University).

Agreement between

Student

Mehdi Asghari Zadeh

11/12/2003

385704

.....
(Name)

(Date of birth)

(Student ID number)

Course coordinator at Department of Computer Science / Oslo Metropolitan University (OsloMet)

Nikola Holm
(Name)

Cooperating partner

Kristoffer H. Hellton, Institutt for informasjonsteknologi
(Name/address/contact person)

and

**Department of Computer Science / Oslo Metropolitan University (OsloMet) by
Head of Department**

Relating to the use and exploitation of specifications and results presented in a Bachelor's Thesis or a Master's Thesis.

1. The student shall carry out the academic work in connection with the assigned

Bachelor's Thesis or Master's Thesis at (if applicable):

.....

(Cooperating partner)

The title of the thesis:

Person-tilpassede ridge regresjon for prediksjoner basert på gen-ekspressionsdata

2. The university is obliged to store answer papers in the form it was submitted until the examination is completed, the deadline for appeal has passed and a diploma is issued. Copies of written documentation and pictures of the object are stored for up to 1 – one year.
3. It is the person who produces a database who is protected by The Norwegian Copyright Act § 43. In cases where the collection of data has been carried out by a student at the bachelor's level and the data collection is to be used by other students at the same level or at the master's or PhD level, the following applies: Data collected by the student with university resources and that shall be used in connection with the academic work, is to be considered property of OsloMet lab-group (if applicable)
-
4. In accordance with the Norwegian Copyright Act, the student will always hold the moral rights to his/her own contributions. This implies the right to be respected and have his/her name stated in the manner required by proper usage (what is subject to intellectual property rights shall not be damaged or dishonoured).
5. OsloMet has the copyright to the student's contribution in the university's project. The submitted copies of the academic work including drawings, models and equipment, but also the computer software included as a part of or appendix to the academic work, therefore are to be considered property of OsloMet. OsloMet is entitled to use the results of the academic work, including its appendices, free of charge for teaching and research purposes, with the restrictions specified in Clause 7.
6. The student has the right to enter into an agreement with OsloMet regarding the publishing of his/her academic work in OsloMet's institutional digital archives. The student is also entitled to publish his/her academic work or parts of it as an independent thesis or as part of a greater work, or in any popularised publication. The publishing must not be in conflict with the restrictions specified in Clause 7.
7. Academic work is to be available in the public domain, cf. The Norwegian Public Administration Act § 26. In special cases, the parties can agree to postpone the publication of all or parts of the academic work for a period of maximum 3 years, i.e. the work is only available for the student and cooperating partner during this period, cf. Clause 6 above.

The academic work is subject to postponed publication for:

One year	
Two years	
Three years	

(please tick the correct number of years, if applicable)

The grounds for postponed publication are as follows:

The parts of the academic work that are not subject to postponed publication can be published in OsloMet's institutional digital archives.

The parts of the academic work that are subject to postponed publication shall be stored in a Records Office with limited access during the period mentioned above.

Even if the academic work is subject to postponed publication, the cooperating partner shall make it possible for the student to use all or parts of his/her academic work in connection with job applications and in relation to a doctoral study.

8. This agreement takes precedence over any other agreements that are or will be entered into by two of the parties mentioned above. In case the student and the cooperating partner are to enter into a confidentiality agreement concerning information the student receives while he/she is staying at the company/institution, the confidentiality agreement shall be enclosed with this agreement.
9. Any disputes relating to this agreement on Bachelor's or Master's Theses should be solved by negotiations. If the negotiations do not lead to a solution, the parties agree that the dispute shall be resolved by arbitration in accordance with Norwegian Law. The dispute shall be decided by Oslo District Court or a body appointed by this court.
10. This agreement is signed in 4 – four copies, of which each party to this agreement is to retain one copy. The agreement comes into effect when it has been approved and signed by the Head of Department at OsloMet at Department of Computer Science / Oslo Metropolitan University (OsloMet).
